## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

### Office of the Secretary

#### 24 CFR Part 111

[Document No. H-80-796]

#### The Fair Housing Assistance Program; Eligibility Criteria and Funding Standards

**AGENCY:** Department of Housing and Urban Development.

**ACTION:** Notice of transmittal of interim rule to Congress under Section 7(o) of the Department of HUD Act.

**SUMMARY:** Recently enacted legislation authorizes Congress to review certain HUD rules for fifteen (15) calendar days of continuous session of Congress prior to each such rule's publication in the Federal Register. This notice lists and summarizes for public information an interim rule which the Secretary is submitting to Congress for such review.

**FOR FURTHER INFORMATION CONTACT:** Burton Bloomberg, Director, Office of Regulations, Office of General Counsel, 451 7th Street, S.W., Washington, D.C. 20410 (202) 755-6207

**SUPPLEMENTARY INFORMATION:** Concurrently with issuance of this notice, the Secretary is forwarding to the Chairman and Ranking Minority Members of both the Senate Banking, Housing and Urban Affairs Committee and the House Banking, Finance and Urban Affairs Committee the following interim rulemaking document:

#### 24 CFR Part 111—The Fair Housing Assistance Program, Eligibility Criteria and Funding Standards

This interim rule would add a new Part 111 setting forth eligibility criteria and minimum standards for the Fair Housing Assistance Program. The program would provide funds to eligible

State and local civil rights agencies for enhancement of fair housing enforcement.

(Section 7(o) of the Department of HUD Act, 42 U.S.C. 3535(o), Section 324 of the Housing and Community Development Amendments of 1978)

Issued at Washington, D.C., April 17, 1980.  
Moon Landneu,  
Secretary, Department of Housing and Urban Development.

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

#### 26 CFR Part 1

[EE-167-78]

#### Self-Insured Medical Reimbursement Plans; Public Hearing on Proposed Regulations

**AGENCY:** Internal Revenue Service, Treasury.

**ACTION:** Public hearing on proposed regulations.

**SUMMARY:** This document provides notice of a public hearing on proposed regulations relating to self-insured medical reimbursement plans.

**DATES:** The public hearing will be held on June 24, 1980, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by June 10, 1980.

**ADDRESS:** The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (EE-167-78), Washington, D.C. 20224.

**FOR FURTHER INFORMATION CONTACT:** Charles Hayden of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, 202-566-6870, not a toll-free call.

**SUPPLEMENTARY INFORMATION:** The subject of the public hearing is proposed regulations under section 105(h) of the Internal Revenue Code of 1954. The proposed regulations appeared in the Federal Register for Thursday, February 28, 1980, at page 13123 (45 FR 13123).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and also desire to

present oral comments at the hearing on the proposed regulations should submit an outline of oral comments to be presented at the hearing and the time they wish to devote to each subject by June 10, 1980.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive appearing in the Federal Register for Wednesday, November 8, 1978.

By direction of the Commissioner of Internal Revenue:

George H. Jelly,

Director, Employee Plans and Exempt Organizations Division.

BILLING CODE 4830-01-M

## ENVIRONMENTAL PROTECTION AGENCY

#### 40 CFR Part 52

[FRL 1472-7]

#### State and Federal Administrative Orders Revising the Michigan State Implementation Plan

**AGENCY:** U.S. Environmental Protection Agency.

**ACTION:** Proposed rule: Proposed approval of revision.

**SUMMARY:** The purpose of this notice is to provide opportunity for comment on the proposed approval of an administrative order which was submitted August 22, 1979 to the U.S. Environmental Protection Agency by the State of Michigan as a Part D revision to Michigan's State Implementation Plan (SIP). In letters sent to USEPA February 13, 1980 and April 1, 1980, the State withdrew certain provisions of the Order from USEPA review of the Order as a SIP revision.

The proposed revision is part of the State's control strategy under Part D of the Clean Air Act (ACT) to attain the sulfur dioxide National Ambient Air Quality Standards (NAAQS) in a

portion of Ingham County, Michigan. The Order was issued to Lansing Board of Water and Light, Ingham County, Michigan.

The Lansing Board operates power and/or steam generating facilities at three complexes in the Lansing area. These three facilities are the Erickson, Eckert-Moores Park, and Ottawa Street stations and are subject to the emission limitations in Rules 336.49 and 336.44 of the Michigan State Implementation Plan.

Michigan submitted technical support which demonstrated that although the Eckert-Moores Park complex is in compliance with the existing State Implementation Plan (SIP), a potential for violation of ambient sulfur dioxide air quality standards exists because of aerodynamic plume downwash at the facility. Michigan's Part D control strategy for the nonattainment area of Ingham County, where the Eckert-Moores Park station is located, is to require the station to build good engineering practice designed stacks to eliminate the downwash condition. USEPA is proposing to approve the revision under Part D of the Clean Air Act.

(42 U.S.C. 7501 et seq.)

**DATE:** Comments on USEPA's proposed approval of the SIP revision are due by May 23, 1980.

**ADDRESSES:** Please send comments to Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, U.S. Environmental Protection Agency, Region V, 230 S. Dearborn Street, Chicago, Illinois 60604.

The State Order, support material and public comment received in response to this notice may be inspected and copied (for appropriate charges) during normal business hours at the above address or at:

Public Information Reference Unit, 401 M Street, SW., Washington, DC 20460.  
Michigan Information Reference Unit, Air Quality Division, State Secondary Government Complex, General Office Building, 7150 Harris Drive, Lansing, Michigan 48917.

**FURTHER INFORMATION MAY BE OBTAINED FROM:** Judy Kertcher, Regulatory Analysis Section, Air Programs Branch, U.S. Environmental Protection Agency, Region V (312) 886-6038.

#### **SUPPLEMENTAL INFORMATION:**

##### **I. Background**

On March 3, 1978 (43 FR 8962) and October 5, 1978 (43 FR 45993), pursuant to the requirements of section 107 of the Clean Air Act as amended in 1977, USEPA designated certain areas in each State as not meeting the National

Ambient Air Quality Standards for total suspended particulates (TSP), sulfur dioxide (SO<sub>2</sub>), carbon monoxide (CO), photochemical oxidants (ozone), and nitrogen dioxide (NO<sub>2</sub>).

Part D of the Act, which was added by the 1977 Amendments, requires each State to revise its SIP to meet specific requirements for areas designated as nonattainment. These SIP revisions must demonstrate attainment of the primary National Ambient Air Quality Standards as expeditiously as practicable but not later than December 31, 1982. Under certain conditions the date may be extended to December 31, 1987 for ozone and/or carbon monoxide.

On April 25, 1979 the State of Michigan submitted its proposed revised SIP to USEPA so that the Agency could review the plan and solicit public comment on both the plan provisions and on USEPA's proposed rulemaking. The proposed SIP revision addresses the Clean Air Act requirements for a nonattainment SIP and some general requirements for a Statewide SIP. USEPA in a Notice of Proposed Rulemaking published August 13, 1979 (44 FR 47350) discussed its review and proposed action on other elements of Michigan's Part D plan.

The April 25, 1979 submittal contained the State's control strategy for the sulfur dioxide nonattainment areas of Midland and Ingham Counties. Portions of these Counties were designated nonattainment because a source in each area was utilizing a supplementary control system (SCS) to meet the SO<sub>2</sub> National Ambient Air Quality Standards (NAAQS). The State's control strategy for the SO<sub>2</sub> nonattainment areas was to rely on existing SO<sub>2</sub> emission limitations in its present regulations while requiring the two sources in the nonattainment areas to apply "continuous emission control systems" to meet those emission limitations. The requirements of "continuous emission control" systems was to be implemented through individual Consent Orders entered into by the two sources and the Michigan Air Pollution Control Commission (MAPCC) and submitted to USEPA as SIP revisions. The Current Order for the source in Midland County was the subject of a Notice of Proposed Rulemaking at 44 FR 35263 (June 19, 1979) and at 45 FR 9752 (February 13, 1980). On March 12, 1980, the Order for the source in Midland County was withdrawn by the State of Michigan.

On August 22, 1979 Michigan submitted the second Order, Order No. 4-1979, to USEPA for review as a site specific SIP revision under Part D and under Section 110(a)(3) of the Act. In letters dated February 13, 1980 and April

1, 1980 the State withdrew certain paragraphs of the Order from consideration by the USEPA although the paragraphs remain enforceable for State purposes. Some of the provisions withdrawn included the revision under Section 110(a)(3) of the Act.

The technical demonstration submitted to USEPA with the Order revealed that a potential for violation of the ambient sulfur dioxide standards continued to exist at the Board's Eckert-Moores station power plant even though the plant was burning compliance fuel. The potential for violation exists because of aerodynamic plume downwash at the facility. The proposed SIP revision requires the Board to install good engineering practice (GEP) designed stacks to eliminate the downwash condition. The construction of the GEP stacks is to be completed by December 31, 1982. Although technical support demonstrated that GEP stack height for the Eckert-Moores complex is 625 feet, the maximum height allowed by FAA Regulation is 619 feet because of the proximity of the complex to the Capital City Airport.

USEPA analyzed the technical demonstration submitted by Michigan and concluded that the SO<sub>2</sub> NAAQS will be attained upon completion of the GEP designed stacks in December 1982.

The Order includes the following schedule for the building of the GEP stacks which will provide for attainment of the sulfur dioxide national ambient air quality standards by December 31, 1982:

##### **C. Eckert and Moores Park Stations**

##### **Erection of Tall Stacks**

2. (a) The Staff acknowledges that the Board has submitted to Staff acceptable plans, specifications, and a permit application (No. 966-78) for erection of "good engineering practice" stacks. The Board agrees that the design of the stacks does not preclude the installation of flue gas desulfurization equipment. The Board agrees that the decrease of sulfur dioxide ground level concentrations provided by these stacks is not, in any manner, a justification or reason for a future request to burn fuels having a sulfur content exceeding the limits specified herein.

(b) By March 1, 1979, the Board shall award the contract for construction of the stacks and liners described in C(2)(a) above.

(c) By April 25, 1979, the Board shall award the contract for construction of the foundations described in C(2)(a).

(d) By May 1, 1979, the Board shall have begun construction of the foundations described in C(2)(c).

(e) By November 1, 1979, the Board shall have begun construction of the stacks described in C(2)(a) for Eckert Units 1, 2, 3, 4, 5, and 6.

(f) By May 1, 1980, the Board shall have begun construction of the stack described in C(2)(a) for the Moores Park Station.

(g) By July 1, 1982, the Board shall have completed the tie-in of Eckert Units 4, 5, and 6 to the stack described in C(2)(a).

(h) By November 1, 1982, the Board shall have completed the tie-in of the Moores Park Station to the stack described in C(2)(a).

(i) After December 31, 1982, the Board shall not operate Eckert Units 1, 2, and 3, unless the exhaust gases from these units are discharged through the stack described in C(2)(a).

USEPA has determined that the proposed revision meets the notice and hearing procedural requirements of CFR §§ 51.4 and 51.6.

USEPA proposes to approve the schedule for construction of the GEP stacks as a Part D SIP revision. Interested persons are invited to submit written comments on this proposed approval action. USEPA has determined that a thirty day comment period is adequate because the revision applies only to the Lansing Board's Eckert and Moores Park Stations and comment has been taken on other elements of Michigan's Part D plan. See 44 FR 47350 (August 13, 1979).

Under Executive Order 12044 (43 FR 12661), USEPA is required to judge whether a regulation is "significant" and, therefore, subject to certain procedural requirements of the Order or whether it may follow other specialized development procedures. USEPA labels proposed regulations as "specialized." I have reviewed these regulations pursuant to the guidance in USEPA's response to Executive Order 12044, "Improving Environmental Regulations," signed March 29, 1979 by the Administrator and I have determined that they are specialized regulations not subject to the procedure requirements of Executive Order 12044.

The Notice of proposed rulemaking is issued under the authority of (Sections 110, 172 and 301(a) of the Clean Air Act, as amended. (42 U.S.C. section 7410(a), 7502, 7601(a)).

Dated: March 6, 1980.

John McGuire,  
Regional Administrator.
